for all

Lenovo

Reading about the rainforest can be interesting. But meeting a jaguar while hiking the Amazon brings those words to life. And although memorizing the stages of photosynthesis could mean a good test grade, diving inside a leaf to view the process firsthand will spark a future scientist.

Lenovo VR Classroom 2 provides an immersive education experience that engages every kind of learner, expanding lessons beyond the books—and outside classroom walls. Providing a seamless combination of hardware, software, and device management, **VR Classroom 2** empowers teachers and administrators to easily integrate virtual reality lessons into their curriculum.

INSPIRED LEARNERS. MEANINGFUL LEARNING OUTCOMES.

A COMPLETE SOLUTION

By combining innovative hardware, cutting-edge software, and awe-inspiring content, VR Classroom 2 equips teachers with all the tools needed for truly immersive learning—online or in person. Plus, onsite or virtual training and responsive support enable educators to deliver VR lessons with confidence.

SIMPLE BY DESIGN

Even without prior VR experience, teachers can successfully engage students with VR Classroom 2 right out of the box. Device management with Lenovo's ThinkReality and classroom management with LanSchool Air let teachers and IT staff manage and control all classroom devices from a single source.

FLEXIBLE COMPONENTS

Now every classroom can tailor the VR Classroom 2 solution to meet its specific needs, confident that the components will work together for successful immersive discovery. Teachers get just the devices they need and all the academic content they want, opening the doors to boundless creativity.

LENOVO VR CLASSROOM 2

Breaking boundaries and building connections. That's smarter.

HARDWARE

Mirage VR S3 headset

Created for robust immersive experiences that result in meaningful learning outcomes.

- Lightweight, all-in-one
- Wireless controller
