

Like bringing you tools to put you ahead of the curve...

...We Do the Little Things for You!

On Watch Training for schools that did not make their AYP goals for one year!

Are you looking for ways to get ahead of the curve and begin making changes to improve student performance before being put on improvement? This workshop is for you. KSDE provided training to service center staff to support schools that are **On Watch** and is recommending that schools **On Watch** attend this training. This is a 1 ½ day training. On the first day, you will be given the tools and strategies to begin developing a plan for improving student performance. During the second half day, you will be working with other attendees and the facilitators of the workshop to review and tweak those plans.

Presenters: Darla Smith and Rachel Loersch
