Life & Workplace Skills

And More...

---

The Learning Centers offer:

**Computer Assisted Instruction  
And Off-Line Materials**

**Certified teachers available for individual, small group, or whole class instruction. They will guide you to earn your high school diploma.**

**This program is a cooperative effort between Smoky Hill ESC and its participating school districts.**

**Work skills may be acquired through work study, internships and our partnership with Salina Area Technical School.**

Students who participate in the program will earn a Kansas State Board of Education accredited high school diploma from their sponsoring school. The computer performance based program allows the student and the teacher to develop an individualized program which fulfills all requirements necessary to receive their high school diploma.

Since this is a performance based program, you can accelerate through your coursework and receive credit for more than one course in a semester. The program does require a firm time commitment. The computer curriculum may be accessed from a The Learning Center lab, your home, local library, or other site with internet service.

*This program has made significant differences for others and can do the same for you. It can be the first step on the road to a more satisfying and fulfilling life!*

If you have questions or are interested in how the program can meet your needs, call one of **The Learning Centers** for enrollment information.
