

Ways to Use the Interwrite Tools in an IDL Class

Save lessons to present to students who were absent

Create video files to teach a software application, a lesson, or as a review to be posted to the server or web. Example- How to create a graph in Excel or how to burn a projects to cd

Use the built in maps to teach continents, oceans, countries, or states and capitals.

Present presentations created by a student or teacher

Have students create e-folios including samples of their work and narration

Digital storytelling

Teach whole group computer or keyboarding skills

Brainstorming

Take notes directly into PowerPoint presentations

Reinforce skills by using online interactive web sites

Creating a project calendar

Teach editing skills using editing marks

Use in the 6 trait writing process

Use highlighter tool to highlight nouns, verbs, adjectives, etc.

Use it with Kidspiration or Inspiration

Teaching students how to navigate the Internet

Illustrate and write a book as a class. Use the record feature to narrate the text.

Use the Interwrite software to create lessons in advance at home or at school and then save them for future use or to be shared with other teachers

Diagramming activities

Teaching steps to a math problem.

Have students share projects during Parent/Teacher/Student conferences

Graphics and charts with ESL learners and special ed students.

Teaching vocabulary

Electronic Word Wall

End each day by having students write one thing that they learned

Sites with resources for interactive whiteboard and tablet lesson ideas.
