About Smoky Hill ESC

Volume Purchasing

Smoky Hill Education Service Center offers a variety of school and office supplies, including technology, at discount prices. Each year, SHESC calls for bids to assure the best prices available with multiple vendors.

The ESM Solutions web-based platform makes ordering supplies less time-consuming with easy online purchasing. All categories (excluding food purchases) are available online.

This includes School Specialty offering a 33% discount on most items and a 13% discount on furniture—all delivered free. Frey Scientific also offers a 33% discount. You can connect to CDW-G directly from the ESM purchasing website to compare prices and place your order.

The Volume Purchasing Program is available to **ALL** school districts and non-profit entities within Kansas. School Districts and non-profits that do not have a membership with Smoky Hill ESC will be billed a 2% administrative fee at the end of each quarter for purchases made.

For more information regarding the Smoky Hill ESC Volume Purchasing Program, to be added to our list of participating districts, or to register in ESM Solutions please contact vp@smokyhill.org or call (785) 825-9185.

Technology Assistance

To acquaint your office or school staff in charge of purchasing with volume purchasing, SHESC can train your staff members in all of our purchasing options. SHESC will also set up webinar meetings so no travel or time out of office is required. There is no charge for these services. Full-time technology support and collaboration with vendors is available, if needed.
