ONLINE EDUCATION OPPORTUNITIES FOR YOUR SCHOOL

Your Students Take FHTC Courses Online

- The Business Administration Technology and the Power Plant Programs are offered completely online. Your students could start taking these courses as juniors and graduate from high school with their technical certificate.
- Other programs offer individual courses students can take to begin working toward a certificate.

FHTC House a Course For You on Our Server

- If you have courses that you would like to teach online but do not want to go to the trouble of setting up your own server.
- FHTC will initiate a course on our system.
- Your students will log into our system and then go into their course.
- FHTC will be responsible for putting your students that would be taking the course into our system and enroll them in your course.
- Set up of the actual course will be the responsibility of your instructor.
- There will be a fee for this service.

FTHC Sets Up and Maintains a Server

- If you have a large number of courses that you would like to offer online, FHTC can house a Moodle server for your school.
- FHTC will set up the server and house it on our system.
- FHTC will do all the backups, upgrades and other maintenance items.
- FTHC will get all SSL certifications.
- Our system administrator will put students into your server and initiate the courses.
- The set up of the actuation course will be the responsibility of your instructor.
- There will be a fee for this service.

For information about these opportunities, contact Kim Dhority at 620.341.1345 or kdhority@fhtc.edu.
