CAMP INFORMATION:

We promise three days of fun, educational and stimulating learning activities for your child! Each activity will integrate various concepts of science, technology, engineering, art and math! Students will rotate through stations each day and will also receive a snack to keep their energy level at top capacity! The camp will be a "No Worksheet" zone! Our instructors have experience with teaching in the classroom and come well equipped to interact with your child in a positive and safe environment!

Our activities include:

- Insulators and Conductors of Heat
- Fictional City – water, traffic, waste, population challenges
- Basic coding computer programs
- Team building activities
