Jim Stone, M.A., taught all of the elementary grades during his 30 year teaching career. Jim's teaching experience includes 13 years as a first-grade teacher and 8 years teaching kindergarten. As a teacher/researcher, Jim spent more than 30 years using research in language development, reading research, and brain research to develop Animated-Literacy™. This highly motivating, multi-sensory approach to learning uses storytelling, gestures for sounds, songs, drawing and labeling lessons, manipulatives, literature, and informational texts to develop early reading and writing skills and concepts. Jim served three terms as a mentor teacher in kindergarten through second-grade in San Diego City Schools. Jim has presented over 500 workshops in 27 states in the United States and 8 provinces and territories in Canada. Jim is the author of several books.

**DELTA CONFERENCE****What is Delta Conference?**

It is a professional development conference for Kansas Career and Technical Education teachers. As part of the professional growth component of teaching, the Delta Conference is a five-day professional development event focusing on:

- Enhancing the local teacher's ability to engage all students in the learning process
- The local teacher's skill of integrating career readiness skills into technical content
- Helping the local teacher understand and develop his or her influence in the classroom, school and community.

Delta is NOT a conference where one learns the latest technical skills specific to a Pathway or to learn the best strategies to train CTSO students for competition. Delta IS a conference that focuses on the craft of becoming a better teacher and leader for your students, on articulating the value of your program to your key stakeholders, and building a complete career and technical education program that will be innovative and sustainable.

Dates

The 2017 Kansas Delta Conference will take place Tuesday-Saturday, beginning in the afternoon on June 13th and ending at Noon on June 17th. It will be held at the North Central Kansas Technical College in Beloit, Kansas.

Schedule

Orientation: 4:00pm Tuesday, June 13th (registration opens at 3:00)
 Daily Schedule: 8:00am - 8:00pm weekdays (breaks for group work and meals)
 Closing: Noon, Saturday, June 17th (lunch on your own)

Lodging

Lodging is included with your registration. Participant rooms are double-occupancy in the new suite-style dorms. Participants must supply their own bedding and towels.

Fees

\$150 per participant reimbursed after conference attendance as a travel voucher. Will be reimbursed to the individual if the individual teacher paid this initially. Will be reimbursed to the school district if the district pays this fee. Meals are included in the registration fee.

Graduate Credit

2 hours of graduate credit through Baker University has been tentatively approved. The fee is \$65 per credit hour or \$130 for the 2 hours of credit. A Smoky Hill rep will be on hand on Day 1 to handle the paperwork. Payment of the fee will be due that day. We will need either a check made payable to Baker University or credit card info will be available on the enrollment form. Go to www.smokyhill.org to register. **THE REGISTRATION DEADLINE IS MAY 12, 2017**

Want to learn more about how phonemic awareness, phonics, vocabulary, fluency, and comprehension support literacy learning? If so, check out LETRS Foundations Training this summer!

LETRS FOUNDATIONS, Grades K-12

LETRS Foundations is a teacher's first step in gaining essential knowledge about effective teaching of reading. *LETRS Foundations* introduces educators to the concepts and practices supported by reading science. It also prepares teachers for the more rigorous, in-depth modules of the overall *LETRS* professional development program.

Crafted for the adult learner, this module addresses the differences between good and poor readers; aspects of language that are important for literacy; the components of effective instruction; principles of systematic, explicit instruction in each component; and instructional activities that can support the implementation of any comprehensive core program.

LETRS Foundations is full of engaging activities, exercises for practice and review, and explicit connections to the classroom. Selected videos from *Teaching Reading Essentials* reinforce and support the lessons in the program.
