

Personal Reflections on Presentation

What might be benefits of implementing an accountability system in my classroom?

How will I be consistent in holding my students accountable to their established SOPs?

What did I learn today that I can apply immediately?

What questions do I still have that I wished were addressed?

Implementing Authentic Accountability Systems within the Classroom - Presentation

Presentation Contact: Anthony Meals --- ameals@usd384.org

Workshop Objective: Participants will explore potential strategies for implementing an authentic accountability environment within a classroom.

Work Session #1: Identifying an aspect that could be used with this system.

Brainstorm Ideas:

Potential Community Partners?

Ideas I like from Peers:

Work Session #2: Structure of Authentic Accountability System

Brainstorm Section:

Questions to consider:

- a. *How will students determine what SOPs to audit?*
- b. *How often will you use each form of audit?*
- c. *How will this become reflected in their grades?*
- d. *How will you gain buy-in to the system from students, parents, and admins?*

Work Session #3: Evaluating System and Result Collection Methods

Brainstorm Section:

Questions to consider:

- a. *What will a successful implementation of my audit system look like in the classroom?*
- b. *What qualitative and/or quantitative measures could I collect to determine the system's efficacy?*
- c. *How will I determine what steps I need to take next?*
