

Thoughts on Continuous Learning Weekly Reflection Questions

The **Continuous Learning** process in Kansas is designed to allow quality education through the end of the academic year, even as COVID-19 precautions mean students are learning from home. The Continuous Learning partnership between schools and home is new to most educators and families, so Smoky Hill Education Service Center is providing these weekly reflection questions to help schools and districts stay on target and focused. Visit us at go.smokyhill.org/COVID19, [Facebook](#), or [Twitter](#) each week for new reflection questions.

BIG PICTURE

- What's been the biggest **SUCCESS**?
- What's been the biggest **CHALLENGE**?

COMMUNICATION

- Is our communication plan for families working?
- Have we heard from everybody?
- What feedback have we asked for and received?

STUDENTS AND FAMILIES

- Any students or families we are concerned about?
- How can we help?
- Who will follow up?

STAFF

- Are there consistent communication expectations?
- Have we checked in on staff members' personal well-being?
- Do staff members have the training and resources necessary for the rest of the year?
