Congratulations, you just landed the hardest job that you will ever love! Becoming a building leader is a great opportunity that comes with awesome responsibility. There are times where you will feel accomplishment, pride and joy in your new position.

There also might be times where you feel confused, burdened or isolated. This principal mentoring program is designed to allow you to share your accomplishments as well as get support and feedback from people who are, or have been, in your shoes.

We will discuss the hot topics of the day, special concerns or questions that you have from your building, and what trends or requirements are on the way in education.

We will occasionally be joined by Kansas administrators, policy makers and content area experts as well to share their

points of view on current topics.

Join us to learn about how to balance the everyday demands of running a building while still accomplishing those “big things” that will mean better outcomes for your students!

“I wish we could meet every week!”

- Past participant

John Girodat - Smoky Hill Education Service Center Education Consultant, former building principal and former KSDE consultant - will facilitate these monthly mentoring sessions.

In addition, you will hear from other Kansas leaders, policymakers and content experts to make your transition to school leadership as smooth as possible.
